

CAMP – PROSPECT PARK BUILDING Cleveland, Ohio

HGF designed the conversion of the ground floor of the 19th century Prospect Park Building into the headquarters for the Cleveland Advanced Manufacturing Program, (CAMP).

The project includes a resource library, meeting rooms, a large seminar space, as well as offices, open office areas, conference room, and a lunchroom. The interior spaces were designed to evoke imagery of the industrial past and present.

Awards:

Certificate of Exceptional Accomplishment
AIA Cleveland's Committee on Historic Resources
