

JUDSON PARK RETIREMENT COMMUNITY, COMMUNITY SPACE RENOVATION

Cleveland, Ohio

Comprising over 10,800 square feet, HGF directed the renovation of the existing Dining Rooms, Conservatory, Garden Lounge, and Volunteer Lounge. The design also created a new Café/Bistro, Sidewalk Café, and Piano Lounge for informal resident and family gatherings.

Throughout the building various spaces are connected by a “streetscape” public circulation system featuring stone planters, masonry walls, window flower boxes and two-story atriums.

JUDSON PARK RETIREMENT COMMUNITY, COMMUNITY SPACE RENOVATION Cleveland, Ohio

Continuing an over ten-year relationship, Herman Gibans Fodor, Inc. was commissioned to direct the interior renovation of the community spaces and service level of Judson Park Retirement Community. In addition to basic architectural services, HGF provided complete interior design services including selection of furniture and finishes. The project was completed in March of 2000.

The interior finishes and furnishings throughout the renovated spaces reflect a sophisticated transitional style. The various spaces are connected by a “streetscape” public circulation system featuring stone planters, masonry walls, window flower boxes and a two-story atrium. The lounges and cafés are further enhanced with elegantly detailed maple crown molds, chair rails, baseboards and doors. A fireplace with stone hearth, wood mantel and paneled surround highlights the Piano Lounge.

Awards:

“Best in Category Renovation and Remodelling” Nursing Home Magazine & Society for the Advancement of Gerontological Environments, *Design 2001*
